

RDI® Professional Training Center CANADA Presents

RDI® Professional Training Program Part 1 Fall 2017

Classes prepare professionals to work with special needs children and their parents focusing on the remediation of Autism's core deficits. A combination of lectures, small group discussions, video analysis, case studies and hands-on practical exercises will equip trainees to empower parents. Course topics include:

- Autism Pathogenesis
- Dynamic Intelligence
- Consulting principles
- Effective client communication
- Our developmental & relationship approach
- Developing intrinsic motivation
- Review of latest research
- Customized assignments
- Proactively addressing behaviors/obstacles
- Training in Relationship Development Assessment
- RDI® Program Goals

Professional Training Part 1 consists of 8 online sessions plus an in-person workshop, followed by a trainee supervision period.
